# Near-Term Shipping Campaigns at PORTS

- A transportation and logistics team composed of DOE, LPP, USEC, UDS, WEMS and ACP has been formed to address the coordination and management of waste, equipment and recyclable material during the next several months during the American Recovery and Reinvestment Act (ARRA) projects.
- The public and facility employees are being notified of the increase in traffic and updates as required.
- Major waste shipments from the ARRA projects will begin in April 2010 and continue through August 2010.

# Near-Term Shipping Campaigns at PORTS

- The majority of trucks will enter and exit from the North Entrance.
- The North Entrance will be open extended hours during the shipping campaign beginning in mid-April 2010 and open 24 hours a day once the West Main Gate is closed for renovations in May.
- The SW Contractors Road will be modified to include installation of a new gate further inside the entrance and removal of existing concrete barriers and poles to facilitate use for future truck shipments and support future D&D work.
