**RE: Sampling and Analysis Plan for Design of Interim Measures at the X-701B Solid Waste Management Unit at the Portsmouth Gaseous Diffusion Plant**

Dear Sirs:

Ohio EPA has reviewed the aforementioned plan submitted to this office on June 11, 2009. The purpose of the sampling plan is to support the additional work at the X-701B holding pond identified by Ohio EPA, and the ongoing interim measure to address the source area of the groundwater plume.

Ohio EPA approves of the sampling plan in accordance with Article XI of the Ohio Consent Decree. During implementation of the sampling plan, should changes to the approved plan be needed, U.S. DOE and Ohio EPA shall implement the agreed upon field change procedure in an effort to avoid delays. However, should substantial modifications be required, Ohio EPA and U.S. DOE shall confer in accordance with the requirements of the Ohio Consent Decree.

If you have any questions regarding the correspondence, please do not hesitate to contact me at 740-380-5289.

Sincerely,

Maria Galanti  
Site Coordinator  
Division of Emergency and Remedial Response
