FEBRUARY 11, 2013 • 5:15 P.M.

THE OHIO STATE UNIVERSITY ENDEAVOR CENTER  
1862 SHYVILLE ROAD, PIKETON, OH 45661

**Subcommittee Members Present:** Sharon Manson, subcommittee chair; Ervin Craft, subcommittee vice chair; Carl Hartley, Brian Huber

**SSAB Subcommittee Members Absent:** None

**Other SSAB Members Present:** Will Henderson, board chair; Gene Brushart

**U.S. Department of Energy (DOE) and contractors:** Greg Simonton, DOE; Rick Greene, Restoration Services, Inc. (RSI); Jeff Wagner, Marc Hill, Fluor-B&W Portsmouth (FBP)

**Liaisons:** None

**Support Staff:** Eric Roberts (phone), Julie Galloway, Cindy Lewis, EHI Consultants (EHI)

**Public:** None

**Manson** opened the meeting:

- 1. Review of the December Meeting:**
- 2. Work Plan Execution-Greg Simonton, DOE**

**Presentation about Historical items at the site presented by Marc Hill, FBP**

**Discussion:**

<b>Question/Comment:</b>	<b>Answer:</b>
<b>Hill:</b> FBP has gone through several buildings. This list is just some of the items we have collected or green tagged. We have thousands of items saved.	
<b>Simonton:</b> At the executive meeting last week, we reviewed the work plan, and talked about how the board would love to have a museum. They discussed having a small display somewhere in	<b>Manson:</b> That would be great. Pike County's 200 year anniversary celebration is in 2015. The plant is a big part of this county and should be included in the celebration. A small display would be

<p>each county. It would help get the story out and not just have the items stored in a building somewhere.</p>	<p>wonderful.</p> <p><b>Greene:</b> It was also discussed that the virtual museum could be part of the display.</p>
<p><b>Huber:</b> Something else the executive subcommittee talked about was having a mobile unit with a TV mounted on the outside. It could travel to the county fairs.</p>	
<p><b>Brushart:</b> What about the risk of any of the items being radioactive? How do you prevent that?</p> <p>Is there a building where these items are being stored?</p>	<p><b>Hill:</b> FBP and DOE has a process to prevent that. Each item has to go through a process to prove that it is not radioactive before it can leave the site.</p> <p>Yes, we have two buildings.</p>
<p><b>Wagner:</b> It is great that the site has someone assigned to gather items. This site is ahead of Fernald on that. Fernald had to run around and salvage what they could at the last minute. They had not been collecting things all the way through the Decontamination and Decommissioning (D&amp;D).</p>	

**Mason:** Meeting adjourned

**Next meeting:** To Be Announced (TBA)

**3. Action Items:**

1. FBP will check to see if a small display of some of the historical items that have been saved, could be displayed in each county or county fairs, and etc.
