- **Thanks for your support Questions?**

<p><i>Cosby:</i> If there were a chemical spill, would that be under HazMat?</p>	<p><i>Boyce:</i> Yes, a chemical spill would be under HazMat.</p>
---	--

<p>I would like to say “Hats off to you. You go through a lot of training. It is hard to find good volunteers.”</p>	<p>EMS used to be stay at home moms, now most moms are out in the work force, so it is getting harder and harder to find volunteers.</p>
<p>Cisco: The first quarter of 2015 has more responses than 2014, is there a reason for that?</p>	<p>Boyce: Yes, there are a couple of reasons for that. The county has gotten more willing to call us. We have engaged a paging system that they use now.</p>
<p>Minter: It takes a special person to find someone that wants to go into a burning building.</p>	
<p>Bandy: Is the mutual aid where you go outside the plant something new? I am hearing more and more about it from people.</p>	<p>Simonton: They have always gone off site when needed, but they have starting going more now because the counties are more willing to call for help now.</p>

2. Miscellaneous: None at this time.

Cosby: Meeting adjourned
